SCOUTING

THE SHOPS with Sally

● There are times when the life of an authoress does not appeal to us. This morning for instance—

● We had just settled down to our typewriter, trying to look as much like Kathleen Norris as possible, when in barged the Ad Man, whistling "Turkey in the Straw."

● "Well, well, how's John?" he inquired heartily. "Suppose he's down at Carr's Service Station, stocking up on gas for that fishing trip!"

● Kathleen Norris flew out of the window. "No, he isn't," we replied. "He's up at the Hilltop Lodge forgetting his troubles. We have termites."

● "Whew," whistled the Ad Man, "that's bad. But don't you know that Lyal Ingersoll will put in concrete foundations for almost nothing? Save you money in the end."

● "We have already called him," we said bitterly, trying to forget the humiliation of having termites. Then we began wondering what to get John, poor dear, for Christmas. He's absolutely fascinated by all those little machines and gadgets at the Meritt Electric homecraft shop.

● We were just beginning to feel like Louisa May Alcott again, when the door suddenly banged and a very upset fat gentleman demanded if this was the dog pound. We had some difficulty in convincing him no, that this was a newspaper and not a dog pound and if he would feed his dog some balanced dog food from the Daly City Cut Rate Market, it would stay at home. So we showed him the Cut Rate's marvelous $1 special this week, and explained how he and his wife could save money on this week's specials there.

● But the lady who came in two moments later was more difficult to deal with. She had tears in her eyes and wanted her fortune told. We said firmly that we were an authoress and not a fortune-teller, and if she would stop at the Daly City theatre and see that delightful comedy, "The Wizard of Oz," she would feel much better.

● Once more we went into a

Anti-aircraft Speaks for Itself

Pictured above is one of Uncle Sam's newest long range anti-aircraft guns in action. Electrical and mechanical devices used by the anti-aircraft corps, such as sound detectors, searchlights, and the anti-aircraft gun itself, are of the latest in design and under severe tests have proven the most effective of their kind. Due to the army expansion program, vacancies now exist for service in the Ninth Corps Area Anti-aircraft units located at San Francisco and Los Angeles.

Black Gangsters

"Black gangsters" are causing anxiety to the Johannesburg, South Africa, police, who have noticed that bands of criminal natives have started carrying arms and using high-powered cars.

Royal Visit Gift

Mayor D. L. MacLaren has presented to the city of St. John, N. B., an autographed photograph of the king and queen, given him when their majesties were in St. John. It will hang permanently in city hall.

Here's Something To Crow About

Daly City Record and Shopping News staff yesterday claimed state championship in weekly newspaper service on local and county election returns.

Complete local returns from Daly City's 22 precincts were compiled and tabulated in The Record office by 10:30 p. m. Tuesday. County returns from all 204 precincts were phoned in at 5 a. m. Wednesday. This week's paper was put to press immediately, and The Record had election results on the street ahead of any other newspaper in San Mateo county, either weekly or daily.

Recommendations Confirmed

After careful study of each issue the editors in a special edition on Monday made recommendations on the five state issues and county amendment.

The editors surveyed election results to find (with great gratification) that local voters confirmed all of their recommenda-

(Continued on Page 2)

First Aid Classes Start Here Friday

First Aid classes, under the direction of the WPA Recreation department, start today at Number 1 firehouse, 188 Santa Barbara avenue. They are open to the public and no charge is made.

This course is a standard Red Cross course. Classes will be held from 7:30 to 9:30 p. m. each Friday, for a period of twelve weeks. Official First Aid cards will be given upon completion of the instruction.

Bob McCoughlin, of E. Bullard and company, safety engineers, San Francisco, will be in charge, assisted by Captain Kai Peterson of Company Number 1, Daly City Fire department.

"I strongly recommend these classes to the public," says Bruce Boynton, local Recreation department head. "We have the best instructors available, and the knowledge of what to do in the event of an emergency is invaluable."

ALBERT H. BOYNTON — — — — — — Editor and Publisher

Jack of All Trades

Darius L. Martin, who died at Deer Island, N. B., at the age of 91, was a jack of all trades and master of each. His diversified work included undertaking, casket-making, carpentry, cabinet-making, painting, veterinary surgery and farming. He was also a justice of the peace.

Industrial Output

From 1910 to 1930, the output for each industrial worker increased 39 per cent, while on the farm the increase was 41 per cent. In the years 1937 and 1938, agricultural production was 5 per cent greater than in 1929, while industrial production was 19 per cent below that of the same year.

tions. They were surprised to find that county voters likewise agreed with the recommendations. Almost phenomenal was the fact that state results varied from local returns on only one issue, No. 5, Oil-gas control.

Importance of ballot issues and The Record's special full coverage issue Monday evening reminding citizens to "VOTE TOMORROW" brought 3,810 of Daly City's 4,653 registered voters to the polls. Better than 82 per cent, this is a record vote for this community.

"Cookies for Sale" Reminds Mrs. Selmi

Daly City's Girl Scout committee today issued a plea to the public for help in the observance of "cookie-week," November 4 to 11.

"We have freshly-baked cookies on sale at 37 Wellington avenue, near the city hall," said Mrs. Paul G. Selmi, chairman. "They are nominal in price, have the girl scout insignia on top and are guaranteed to be a treat for any family."

Funds from the campaign will be used for a badly-needed summer camp for the girls. The cookies are also being sold by the individual girl scouts.

Elements in Textile Fibers

Textile fibers, including cotton, linen, rayons, silk and wool, are built up mainly from carbon, hydrogen, and oxygen, although silk has in addition some nitrogen, and wool has nitrogen and sulphur, says Industrial and Engineering Chemistry.

Now Playing

Judy Garland, Frank Morgan, Bert Lahr in "The Wizard of Oz"

Ocean Water Varies

Successive high ocean waters come at intervals of 12½ hours or half the moon's period of revolution.

Musical Fantasy At D. C. Theatre

Engineering and photographic problems never before encountered in a motion picture went into the filming of "The Wizard of Oz," hailed as Hollywood's most ambitious musical spectacle since "The Great Ziegfeld." The picture, one hundred per cent musical and filmed in Technicolor, is now playing at the Daly City theatre.

New inventions in sound recording, color photography make-ups which eliminated use of masks, music and lyric writing, costuming and special effects which are reported to be beyond solution were required to bring L. Frank Baum's famed story to the screen under the direction of Victor Fleming, remembered for his direction of "Captains Courageous" and "Test Pilot."

Good Wading

Palanga, a Lithuanian coast resort 700 years old which has a tourist population twice the number of its own inhabitants, has one of the safest sandy beaches of the Baltic. You can wade out 90 feet on the sandy ocean floor before the sea reaches the knees. It is a paradise for children's play.

Smallest Pilot

Omar Murray, of East Syracuse, N. Y., claims he is the country's smallest man to be granted a pilot's license by the federal civil aeronautics authority. Murray is four feet eight inches tall and weighs 98 pounds.

Costly Progress

It will cost $17,500,000 to relocate a railroad whose tracks will be flooded by the new Shasta dam in California.

SCOUTING THE SHOPS

(Continued from Page 1)

huddle with our typewriter, invoking the spirit of Willa Cather to help us describe just exactly how good those tender, juicy, solid cross rib roasts were at Farmers Meat Company this week. "Delicious," we thought, "and nice. And only 25c a pound. But surely Willa Cather can do better than that—"

● But we shall never know. Because just then the janitor accidentally hit us in the back with his broom, dashed over to revive us, dropped an oily duster on our best skirt and knocked over a bottle of glue on the table. P. S. The skirt is at Beeson Cleaners.

● However, we love our work, and so it was not long before we were wondering what Charlotte Bronte would have said about the two-pound jar of peanut butter that Milo's is selling for 20c this week. White King toilet soap is not very poetic, we reflected, but still at 4c a cake, it's a wonderful bargain. And there is nothing that authoresses like better than the nice thick steaks that Milo's sell, or fried rabbit or sand dabs and smelt—

● We felt that our mind was beginning to wander again. But just as we gripped it firmly, who should come dashing into the office but a very excited woman who said that if the newspaper wanted an advance story on her funeral, now was the time to get it, because she was going to throw herself into the bay. Naturally, we were very perturbed all the time we were taking notes for the obituary, until we suddenly thought to send her up to the La Cerna Beauty Salon for a permanent wave and manicure.

● Meanwhile, the Sports Editor had dashed into the office, turned on our new Phoenix radio from Byrne's Radio Store, and was avidly listening to the football scores. Why can't he buy one of Byrne's little portable radios, we thought bitterly, and leave artists alone with their work.

● We had just safely returned to the realms of high thought, when the telephone rang.

● "Guess what, Mama," Sue Ann piped up over the phone to us. "Baby just fell out of the high chair, and pulled the toaster over with her. It's all ruined."

● A sort of cold horror gripped us. "What do we care about the toaster?" we shouted back. "We can buy a new one at Rossi Hardware for almost nothing. But what about the baby?"

● "Yes, but," Sue Ann's voice was plaintive, "it knocked all the white paint and pink bunnies off the high chair. You really should see it, Mother."

● "Listen, Sue Ann," we tried to be calm in the crisis. "Mother doesn't care about the paint. Rossi carries a complete line of that, too. Where is the baby?"

● "And the bread and the dishes are all over the floor," Sue Ann volunteered. "Can I go down to the Geneva Bakery and get some of that good raisin bread?"

● Desperation seized us. We saw our baby in bits all over the floor. "Sue Ann, how is the baby?" we whispered hoarsely.

● "We---ell, I don't know," replied our eldest, doubtfully. "She's licking up all the baby food from the floor with her tongue."

● We don't know how we ever recovered. We remember vaguely sending someone up to Edwards Drug Store for some aspirin tablets, some new bottles for the baby and some pencils (the Ad Man had absconded with all ours). We remember thinking that if the baby lived at all, it would probably be because Edwards was so good at filling prescriptions.

● And we remember making a note to buy some more baby food from Lucca Ravioli company. It's only 20c for 3 cans there this week. Which led us to think that the free dish that comes with a package of Bisquick there would probably be a great help in setting the table after the grand breakage, in which heaven alone knows how many dishes had gone down with the baby to defeat and disaster. (P. S. Nice lamb legs and artichokes at Lucca's this week).

● It was some time before we

(Continued on Page 7)

Divorce in Canada

The steady increase of divorce in Canada is attracting the attention of sociologists and statisticians of the Dominion. The figures steadily mount. In 1918, there were only 114 divorces in all the country. In 1928, the figure had risen to 783 and in 1938, to 1,883.

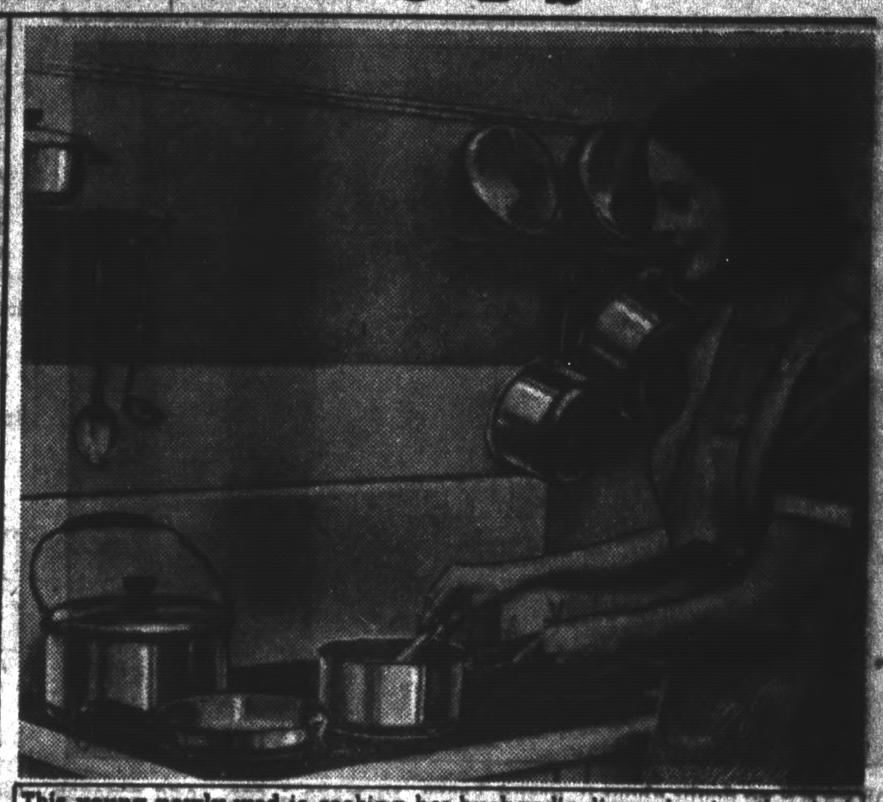
THE RECORD SNAPSHOTS

The Champ . . . 15 Seconds Flat—Gig Harbor, Wash.— The champion rooster of all time, Dot, makes it around the 80 yard track in 15 seconds flat, and runs 4 races in one day. He is sitting in his favorite roost, the steeple of the newest addition to Roostersville, a church, built by C. E. Shaw, left, owner of the birds and the the rooster village.



This young newly-wed is cooking her husband's dinner in utensils which symbolize the Revolutionary Marriage of Stainless Steel to Copper. This is the greatest improvement in cooking utensils in more than a century. Stainless steel is used for the body and copper for the bottom. These are the perfect metals for the modern kitchen. The stainless steel has a high polish, mirror-like finish—resists denting— everlasting beauty. The copper bottom distributes heat uniformly, which means greatest cooking efficiency. These utensils are as easy to clean as glass—for routine cleaning, soap and water make them gleam like silver. Both metals are perfect and indestructible in the purposes they serve.

From horseback to a tower atop the magnificent George Washington Bridge, 600 feet above the Hudson River, clambered seven Texas glamour girls to enjoy the view and a respite from their sponsorship of the Fourteenth Annual World's Championship Rodeo at Madison Square Garden, New York City.

Black Cat Casts Shadow— Judith Barrett displays considerable charm as a black cat, typifying Halloween, casts an ominous shadow on a spooky background.

Russia Trains Women

Young Russian peasant women are being taught to drive tractors and otherwise fit themselves to replace men in the event of an emergency. Thousands of men are undergoing spare time military training.

Old Fashioned Herb Jellies For Us New Fashioned Cooks

THERE'S no doubt about it, grandmother's herb lore has completely captivated the modern cook. Once again marjoram, basil, and savory are household words . . . and even the most cautious homemaker adds a pinch of sage, thyme, or rosemary to the soup and stew.

But the most delicious evidence of our new enthusiasm is found on the jelly shelf—for all the charm of a fragrant herb garden can now be captured in delicate spreads. Sage jelly to serve with duck and turkey, savory jelly to dress up a plain pork roast — those are the things that set guests to talking and put your best friend in a clamor till you lend the recipes.

These directions are foolproof, require but a half-minute boil, you get four medium glasses from your three cups of sugar . . . and so fine are the flavors you'll want to make several batches to put away for Christmas gifts.

SAGE JELLY

(Makes about 4 medium glasses)

1 cup sage infusion
¼ cup vinegar
3 cups sugar
Coloring
½ bottle fruit pectin

Pour 1¼ cups boiling water over 2 tablespoons sage. Cover, let stand 15 minutes, strain to remove herbs.

Measure infusion into 3-quart saucepan, adding water if necessary, to make 1 cup. Add vinegar and sugar, and mix.

Place over hottest fire and while mixture is coming to a boil, add coloring to give desired shade. Use coloring which fruit acids do not fade. As soon as mixture boils, add bottled fruit pectin, stirring constantly. Then bring to a *full rolling boil* and boil hard ½ minute.

Remove from fire, skim, pour quickly. Paraffin hot jelly at once.

SAVORY JELLY

(Makes about 4 medium glasses)

1 cup savory infusion
¼ cup vinegar
3 cups sugar
Coloring
½ bottle fruit pectin

Pour 1¼ cups boiling water over 2 tablespoons savory. Cover, let stand 15 minutes, strain to remove herbs.

Measure infusion into 3-quart saucepan, adding water if necessary, to make 1 cup. Add vinegar and sugar, and mix.

Place over hottest fire and while mixture is coming to a boil, add coloring to give desired shade. Use coloring which fruit acids do not fade. As soon as mixture boils, add bottled fruit pectin, stirring constantly. Then bring to a *full rolling boil* and boil hard ½ minute.

Remove from fire, skim, pour quickly. Paraffin hot jelly at once.

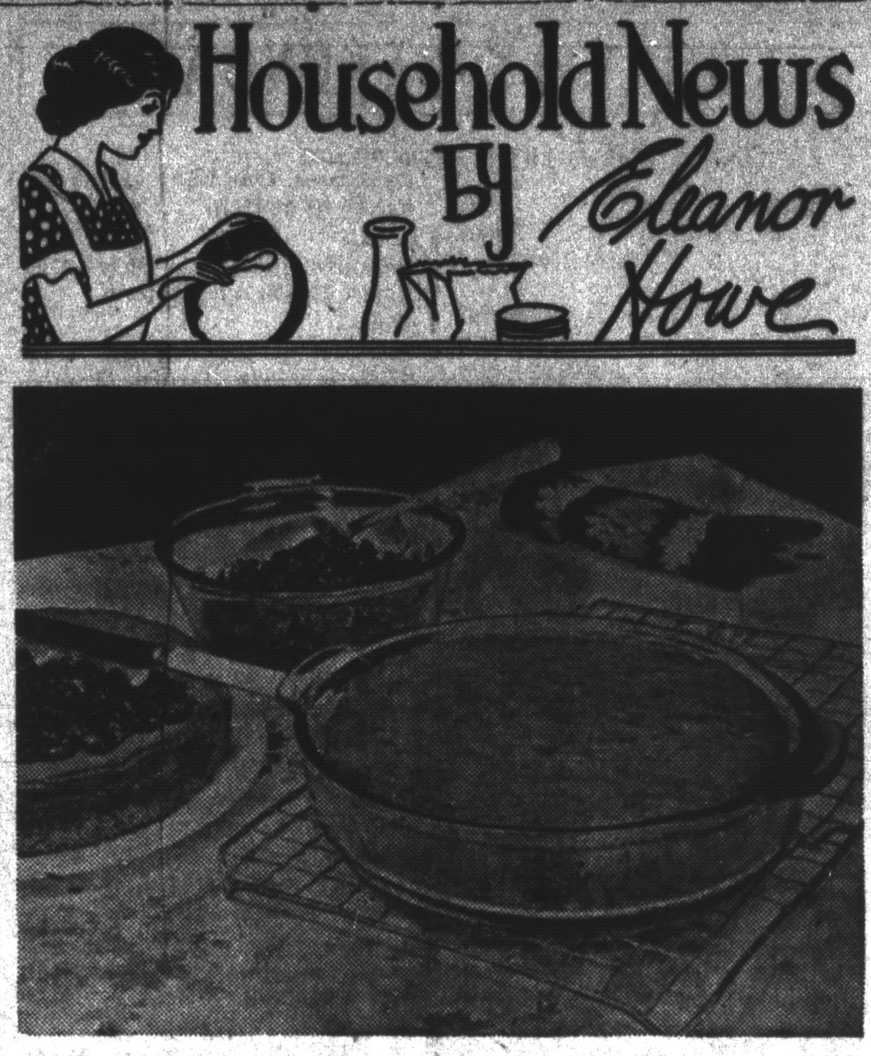
Christian Science Lesson-Sermon

"Henceforth know we no man after the flesh." These words from II Corinthians comprise the Golden Text to be used Sunday, November 12, in all Churches of Christ, Scientist, branches of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

The subject of the Lesson-Sermon will be "Mortals and Immortals." Included among the Scriptural selections will be: "Man that is born of woman is of few days, and full of trouble. He cometh forth like a flower, and is cut down: he fleeth also as a shadow, and continueth not" (Job 14:1, 2).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Man's Genuine selfhood is recognizable only in what is good and true. Man is neither self-made nor made by mortals. God created man" (p. 294).

Household News By Eleanor Howe



DESSERTS IMPORANT IN MENU

(Recipes Below.)

Desserts That Are Different

Build up your menu to an interesting climax with a new and delicious dessert!

Desserts really play an important part in the menu, and in nutrition, too.

Sweets, provided in proper amounts and in the proper place in the diet, are just as necessary to good nutrition as milk, meat, fruits, vegetables and cereals.

Plan the dessert to fit the menu—a light sweet for the close of a hearty dinner, and a richer, heavier dessert to wind up the meal that is fairly simple. Consider the weather, too, and when it's hot and humid, serve sweets that are temptingly dainty. When the temperature drops and appetites perk up accordingly, desserts may be sweeter, richer and more substantial.

You'll find in this collection of tested recipes from my own kitchen a dessert for almost any occasion.

Queen of Puddings.

2 cups milk
1 cup soft bread crumbs
1 tablespoon butter (melted)
2 egg yolks (well beaten)
3 tablespoons sugar
1 teaspoon vanilla extract
Dash salt
Currant jelly
2 egg whites
¼ cup granulated sugar

Scald milk and pour over the soft bread crumbs. Add melted butter,

HOUSEHOLD NEWS by ELEANOR HOWE

(Continued from Page 6)

and allow the mixture to stand 10 minutes. Then beat egg yolks and add to the mixture, together with 3 tablespoons sugar, the vanilla extract and the salt. Pour this mixture into a buttered baking dish, place in a pan of hot water, and bake in a slow oven (275 degrees Fahrenheit) for 45-50 minutes or until custard is firm.

Cool and spread with a layer of currant jelly or strawberry jam. Cover with meringue made by beating egg whites and adding sugar slowly. Brown meringue in a slow oven (300 degrees Fahrenheit) for 18 minutes. Serve hot, warm or cold.

Lemon Meringue Pie.

1 cup sugar
⅓ cup cornstarch
¼ teaspoon salt
⅞ cup cold water
⅞ cup boiling water
3 egg yolks
1 tablespoon butter
¼ cup lemon juice
1 teaspoon grated lemon rind

Combine sugar, cornstarch and salt. Add cold water; stir until smooth. Add boiling water and cook, stirring constantly, until mixture is clear and thick. Cook 3 minutes longer. Beat egg yolks; stir cooked mixture into them. Add remaining ingredients, return to flame and cook 1 minute. Pour immediately into baked pie shell. Top with meringue.

Meringue.

3 egg whites
6 tablespoons sugar
⅛ teaspoon salt

Beat egg whites partially; then add sugar slowly, beating until mixture is stiff. Bake in slow oven (300 degrees) for 18 minutes.

Maple Cake.

½ cup shortening
1½ cups brown sugar
3 eggs (separated)
2 teaspoons maple flavoring
2 cups cake flour
3 teaspoons baking powder
¼ teaspoon salt
¾ cup milk

Cream shortening thoroughly, add sugar in small amounts, creaming after each addition. Add egg yolks, one at a time, continuing to beat well. Blend in the flavoring. Sift dry ingredients together, and add to the creamed mixture alternately with the milk. Beat egg whites until stiff but not dry. Fold gently into the batter. Pour into two well-greased cake pans, 9 inches in diameter and 2 inches deep. Bake in a moderate oven (350 degrees) for about 40 minutes. Note: This cake is especially good with a fig filling and maple-flavored frosting.

Steamed Chocolate Pudding.
(Serves 5)

1½ cups pastry flour
¼ teaspoon salt
1½ teaspoons baking powder
1½ squares bitter chocolate
3 tablespoons butter
½ cup sugar
1 egg
½ cup milk
½ teaspoon vanilla extract
Vanilla or peppermint candy ice cream

Sift flour, salt and baking powder. Melt chocolate and butter in top of double boiler and pour in bowl. Cool slightly; then add sugar, unbeaten egg, milk and vanilla extract. Beat well. Add sifted dry ingredients and stir until smooth. Pour into top of a well-greased double boiler and steam for 1½ hours. Serve with ice cream.

Graham Cracker Ice Cream.

1 cup graham cracker crumbs
¾ cup sugar
2 cups coffee cream
1 cup milk
1 teaspoon vanilla extract

Combine the cracker crumbs and the sugar; add cream, milk, and vanilla. Pour the mixture into the freezing container of a modern ice cream freezer: assemble the freezer, and cover. Pack with a mixture of 3 parts of crushed ice to 1 part of rock salt. Turn the crank slowly and steadily, for about 5 minutes, or until turning becomes difficult. Then carefully remove the cover, lift out the dasher, and pack down the ice cream with a spoon. Replace the cover, draw off the water, and replenish with ice and salt. Cover, and allow to harden for at least an hour before serving.

Good Old Pan Dowdy.

1 cup light molasses
⅛ teaspoon allspice
⅛ teaspoon clove
⅛ teaspoon nutmeg
2 teaspoons cinnamon
Apples
½ cup sugar
2 tablespoons butter
Rich pastry

Combine molasses and spices. Arrange pared and sliced apples in a baking dish, sprinkle with sugar, and dot with butter. Pour molasses mixture over this, and cover with a rich pastry, rolled rather thick. Bake in a moderate oven (350 degrees) for about 45 minutes. Then cut the baked pastry top in 2-inch squares and push them down in the molasses and apple mixture. Let cool slightly. Serve with thick cream.

Turn to Eleanor Howe's easy-to-use homemaking guide, "Household Hints," for the answers to those tricky questions which pop up even in the best-run households. How to prevent cereals from lumping; how to wash feather pillows or adjust curtain tie-backs; how to remove mildew from colored clothing — you'll find the answers to these and many other puzzling questions in Eleanor Howe's book, "Household Hints." Send 10 cents in coin to "Household Hints," care of Eleanor Howe, 919 North Michigan Avenue, Chicago, Illinois, to get your copy of "Household Hints" now.

Holland Buses

All motor buses in Holland must have a door in the top as an emergency door in case the vehicle should slip into a canal.

Scouting the Shops

(Continued from Page 3)

began to feel like Elizabeth Barrett Browning again. We were so rattled that when a man called up and wanted to know where to get some Ham and Eggs, we carefully explained that the election was over and there wasn't going to be any Ham and Eggs. We can't repeat what he said at this point, but it seems he wanted to know where to buy them. So we, of course, told him Robertson's Egg Store, and hung up, feeling very squelched.

● We felt even more squelched when the Star Reporter dashed in, grabbed a typewriter with one hand, stopping the presses with the other, and wrote his big story in the twinkling of an eye. We looked over his shouder, very awed, and discovered that it concerned the marvelous new improved milk bottles at the Mission Creamery, which separate the milk and the cream.

● There isn't much more to tell. Our morale was so completely shattered that we went home and had some steaming fragrant black coffee (25c a pound for Schilling's at Westlake this week) and went right to bed. We were going to write our column then, but we had also bought some crackers at Westlake Market, which made crumbs in the bed. So that's the way it was.

Sound Your 'A'

The Queen Mary carries two sets of trumpet-shaped sirens. When a full blast of steam is turned into these powerful sirens, their deep, soft, far-carrying tone can be heard ten miles away. The tone is two octaves below middle A, the deepest bass voice ever to rumble over the seas. After a committee of acoustic experts had carried out numerous tests, the note of A was found to be ideal for nerve comfort.
